EDUCATION

University of Texas at Austin
Aug 2021 - May 2023
MS, Information Science
Track: HCI & UX Design focus

Purdue University
Aug 2017 - May 2020
BFA, Interior Architecture Design
Minor: Building Information Modeling

SKILLS & LANGUAGES

Develop
- Product thinking
- Problem framing
- Stakeholder alignment
- Metrics driven design

Experience & Research
- Information architecture
- Interaction design
- Usability testing
- User interviews, survey design
- Research synthesis

Systems & Scale
- Design systems
- System level UX
- Scalable pattern design
- Accessibility at scale

Tools & Collaboration
- Figma
- Adobe CC - Photoshop, Illustrator, Indesign, XD
- Miro
- HTML/CSS/JS (React)
- CMS Platform

Instructional Experience

Graduate Teaching Assistant (Computer Science)
UT Austin, Cockrell School of Engineering, Jun–Aug 2023

WORK EXPERIENCE

Product Designer @ Designity
Feb 2024- Present | New York, NY | Full-time

- **Designed and launched ValeHealth, a 0 to 1 health marketplace**, building an AI assisted experience that helped convert an early prospect into an active client and move the platform from concept to live product.
- **Developed a conversational AI insight feature**, enabling users and internal teams to extract actionable insights faster, improving decision making efficiency and reducing manual analysis time.
- **Built a scalable Figma design system for the health and retail products**, delivering 20+ reusable components and 5 templates covering plan cards, pricing breakdowns, eligibility states, and error handling; improved consistency and accelerated iteration speed.
- **Accelerated delivery using AI assisted workflows**, reducing production time by 30% while maintaining accessibility and design system consistency.

Product Accessibility Specialist @ UT Arlington
Feb 2025- Oct 2025 | Arlington, TX

- Led the transition to a **Unified Interaction Framework**, replacing static accessibility guides with a **live component library**; reduced keyboard-navigation bugs by 45% and ensured **WCAG 2.2 AA compliance** across the enterprise ecosystem.
- Built and ran an audit to remediation pipeline across 50+ sites per month, turning findings into prioritized roadmaps; **reduced compliance regressions by 40%** and improved maintainability by partnering with engineering to enforce **QA gates and release checklists.**

UX Designer & Developer @ Schaefer Advertising Co.
May 2022- Mar 2023 | Fort Worth, TX

- **Planned and ran usability testing for Fort Worth Zoo with 3 sessions and 25 users**, synthesizing findings into prioritized fixes; resolved key drop off points before release to improve way finding, ticket purchase flow clarity, and reduce rework.
- **Managed and delivered 10+ concurrent stakeholder requests** across client projects, translating feedback into scoped design and build updates; increased approval rate by 40% and reduced back and forth.

Designer @ Walt Disney Imagineering
May 2019- Aug 2019 | Glendale, CA

- Developed 3D schematic models to support system level design decisions and operational planning for large scale environments.
- Collaborated with engineers and designers to visualize complex workflows and spatial constraints, informing feasibility discussions and design trade offs.
