EDUCATION

University of Texas at Austin

Aug 2021 - May 2023

MS, Information Science

Track: HCI & UX focus

Purdue University

Aug 2017 - May 2020

BFA, Interior Architecture Design

Minor: Building Information Modeling

SKILLS & LANGUAGES

Product & Strategy

- Product thinking
- Problem framing
- Stakeholder alignment
- Metrics driven design

UX & Research

- Information architecture
- Interaction design
- Usability testing
- User interviews, survey design
- Research synthesis

Systems & Scale

- Design systems
- System level UX
- Scalable pattern design
- WCAG, Accessibility

Tools & Collaboration

- Figma
- Adobe CC - Photoshop, Illustrator, Indesign, XD
- Miro
- HTML/CSS/JS (React)
- CMS Platform

Instructional Experience

Graduate Teaching Assistant (Computer Science)

UT Austin, Cockrell School of Engineering, Jun–Aug 2023

WORK EXPERIENCE

Product Designer @ Designity

Jan 2024- Present | New York, NY | Full-time

- Led design for ValeHealth, a **0→1 AI-driven health marketplace** connecting users with personalized care programs.
- Designed a conversational diagnostic intake experience that lowered the barrier to symptom reporting and **achieved a 92% completion rate** for the health assessment.
- Developed an AI-powered health recommendation system that translated symptom and goal data into personalized care plans, **driving a 2.8× increase in click-through rate** on recommended programs.
- **Built a scalable Figma design system with 20+ reusable components** and 5 templates, improving design consistency and reducing iteration time across product features.
- Accelerated design delivery using AI-assisted workflows for research synthesis, prototype generation, reducing production time by 30%.

Product Accessibility Specialist @ UT Arlington

May 2024- Oct 2025 | Arlington, TX

- Led the transition to a **unified interaction framework** replacing static accessibility guidelines with a live component library.
- **Reduced navigation defects by 45% and ensured WCAG 2.2 AA** compliance across enterprise digital platforms.
- Designed and implemented an accessibility audit-to-remediation pipeline across 50+ sites per month, reducing compliance regressions by 40%.

UX Designer & Developer @ Schaefer Advertising Co.

May 2022- Apr 2023 | Fort Worth, TX

- **Planned and ran usability testing for Fort Worth Zoo with 3 sessions and 25 users**, synthesizing findings into prioritized fixes; resolved key drop off points before release to improve way finding, ticket purchase flow clarity, and reduce rework.
- **Managed and delivered 10+ concurrent stakeholder requests** across client projects, translating feedback into scoped design and build updates; increased approval rate by 40% and reduced back and forth.

Designer @ Walt Disney Imagineering

May 2019- Aug 2019 | Glendale, CA

- Developed 3D schematic models to support system level design decisions and operational planning for large scale environments.
- Collaborated with engineers and designers to visualize complex workflows and spatial constraints, informing feasibility discussions and design trade offs.
