

# Jen Yeh

Product Designer with an AI native working style, actively using LLM(Claude, Cursor) tools in daily workflow for research synthesis, concept exploration, and prototyping. Experienced in translating complex product logic into clear, trusted user experiences.

## EDUCATION

### University of Texas at Austin

Aug 2021 - May 2023

MS, Information Science

Track: HCI & UX Design focus

### Purdue University

Aug 2017 - May 2020

BFA, Interior Architecture Design

Minor: Building Information Modeling

## SKILLS & LANGUAGES

### AI Native Design & Prototyping

- Cursor
- v0
- Claude (Figma MCP)
- LLM(ChatGPT, Gemini)
- HTML, CSS, JavaScript, React, rapid prototyping

### Product & UX Design

- UX design
- Interaction design
- Information architecture
- User flows
- Wireframing
- User interviews

### Systems & Collaboration

- Design systems
- Component libraries
- Accessibility (WCAG & ADA)
- Stakeholder alignment
- Cross functional collaboration

### Tools

- Figma
- Adobe CC - Photoshop, Illustrator, InDesign, XD
- Miro

## Instructional Experience

### Graduate Teaching Assistant (Computer Science)

UT Austin, Cockrell School of Engineering, Jun–Aug 2023

## WORK EXPERIENCE

### Product Designer @ Designity

Jan 2024- Present | New York, NY | Full-time

- **Led end to end design for health-tech product, an AI driven health platform**, translating complex recommendation logic into structured, low friction user workflows across web and mobile.
- Designed a guided intake experience for sensitive health reporting, reducing cognitive load and increasing assessment completion to 92%.
- **Partnered closely with product and engineering teams to shape AI powered recommendation flows**, turning user symptom and goal data into personalized care program experiences that **increased program CTR by 2.8x**.
- **Built and scaled a reusable design system** with 20+ components and 5 templates, improving consistency and speeding product iteration across new features.
- **Used AI native workflows to accelerate synthesis, prototyping**, and production tasks, reducing design delivery time by 30%.
- Prototyped interaction details in HTML/CSS/JS(React) based workflows to reduce handoff ambiguity and improve implementation speed.
- **Worked with ML and engineering partners to align model capabilities**, UX constraints, and interface behaviors, ensuring product decisions were technically feasible and understandable to end users

### Digital Accessibility Specialist @ UT Arlington

May 2024- Oct 2025 | Arlington, TX

- Led the transition from static accessibility guidance to a live component based interaction framework across enterprise digital products.
- Improved navigation clarity and **reduced defects by 45% while supporting WCAG 2.2 AA** compliance across complex product environments.

### Product Designer @ Schaefer Advertising Co.

May 2022- Apr 2023 | Fort Worth, TX

- Planned and conducted usability testing for a public facing digital experience, synthesizing findings into prioritized design and implementation updates before launch.
- Translated stakeholder and user feedback into scoped design and front end updates, increasing approval rates by 40% and reducing rework cycles.

### Designer @ Walt Disney Imagineering

May 2019- Aug 2019 | Glendale, CA

- Supported cross-functional design work across large-scale experience systems involving operations, accessibility, and user flow considerations
